

KNOW YOUR REPRODUCTIVE RIGHTS

The following information is intended to answer questions about your legal rights. You should talk to a health care provider about questions regarding your reproductive health, including whether and when you can terminate your pregnancy.

Exercise caution when speaking with a new health care provider or searching online for health information. Do not share your personal health information except with a trusted provider.

DOES ILLINOIS LAW PROTECT MY RIGHT TO AN ABORTION?

Yes. Illinois law protects your right to have an abortion and treats abortion like other kinds of health care. You are entitled to this right regardless of gender identity, sexual orientation, immigration status, race, ethnicity, disability status, or any other protected characteristic.

DOES ILLINOIS LAW PROTECT MY RIGHT TO RECEIVE OTHER REPRODUCTIVE HEALTH CARE?

Yes. The State cannot interfere with your decisions regarding reproductive care, including whether or not to use birth control, how to manage a pregnancy loss, and decisions about giving birth like whether to have caesarean surgery or epidural anesthesia.

WILL I LOSE MY RIGHT TO HAVE AN ABORTION IF THE U.S. SUPREME COURT OVERTURNS ROE V. WADE THIS SUMMER?

No, not in Illinois. Roe v. Wade said that the U.S. Constitution limits states' ability to make abortion illegal. Even if the Supreme Court decides that's no longer true, your right is still protected under Illinois law.

ARE THERE LIMITS ON WHEN A PROVIDER CAN GIVE ME AN ABORTION?

Talk to your provider. Illinois law does not set a specific time limit. Health care providers perform abortions until "viability," which is determined by your individual circumstances. In some situations, a provider could determine that viability exists around 24-28 weeks into pregnancy. Even if your provider determines that your pregnancy has reached viability, you may be able to have an abortion if your provider thinks it is necessary for your health.

CAN I GET A PRESCRIPTION FOR ABORTION MEDICATION ONLINE IN ILLINOIS?

Yes. In Illinois, you can get a prescription for medication abortion through an online telehealth appointment with a medical provider and have the medication sent to you by mail.

Providers who offer medication abortion generally do so up to around 10-11 weeks of pregnancy.

DO I HAVE TO BE A RESIDENT OF ILLINOIS TO RECEIVE AN ABORTION IN ILLINOIS?

No. Residents of other states may receive health care in Illinois, including abortion and other reproductive care.

However, Illinois does not regulate how out-of-state insurance plans provide coverage, so you should speak to your insurer and health care provider to understand your payment options.

WILL MY HEALTH INSURANCE COVER AN ABORTION?

Maybe. If you have insurance with pregnancy benefits, then it likely also covers care related to terminating your pregnancy.

Illinois Medicaid and most Illinois-based private health insurers cover abortion in policies that include pregnancy-related care. Contact your insurance provider for your policy information.

I'M UNDER 18 YEARS OLD; CAN I GET AN ABORTION?

Yes. Illinois protects your right to an abortion too.
